

Special Offers

[Finca Malvasia](#) is a boutique guesthouse and vineyard on Lanzarote providing luxury self-catering apartments with the option of a gourmet bed and breakfast service. We have a few dates left in April, May and June with 20% or 25% discounts on the usual rates. Although the Canaries is typically seen as a winter destination, the weather gets even better as we move towards summer: warmer, even less rain and an average of 10 hours of sunshine every day.

[Hacienda El Santiscal](#) on the Atlantic side of

Andalucia has a choice of ways to save money. You could save 5% by paying at the time of booking (far better than the interest you'll earn by leaving the money in the bank). Or you can save 10% with their "long-stay" discount. That applies for stays of three nights or more, so it doesn't really demand a long "long-stay". And finally there's an early-booking discount: a 10% saving if you book your autumn stay before 31 July.

Another hotel with lots of ways to save money is [Casa do Sear](#), a historic manor house on the Ria de Pontevedra. There are discounts right through the year for early-booking (30 days in advance), long-stay (7 nights or more), or just for being over 50! In low season there's a "Four nights for the Price of Three" offer and there are dinner and massage packages throughout the year too. Casa do Sear has the distinction of playing host to HM King Juan-Carlos II not once but twice. We don't know which discounts he got though 😊.

There's lots more too, and offers change frequently. Watch out for the red *Special Offer!* labels on our pages.
